

KESTAR FM SERIES

Semi Automatic Flute Lamination Machine

FM Series Semiautomatic Flute Laminator is mainly used in color printed card board to corrugated board lamination.

Function Characteristics

*** High Precision**

Uses German advanced front lay registration technology, accurate and stable and the corrugated paper never advance while top paper can be adjusted within 0-25mm for advancing.

*** High Efficiency**

Simple and easy feeding way enables easy and free operation for top paper and corrugated board, which enhances production efficiency and reduces labor intensity. Easy operation.

*** Application Range**

Used for card to A,B,C,D,F flute corrugated paper lamination.

*** Low Fault**

Scientific and reasonable mechanical structure cooperating with imported high quality electric automatic control system ensures the machine run at low fault. It effects a permanent cure for user's troubles back at home.

TECHNICAL PARAMETERS

Model	MF-1100	MF-1300	MF-1450
Max. Paper Size	1100 x 1100 mm	1300 x 1100 mm	1450 x 1200 mm
Min. Paper Size	360 x 360 mm	360 x 360 mm	360 x 360 mm
Lamindin Precision	2-5 mm (± 1.5 mm)		
Max. Speed	0-65 m / min.	0-65 m / min.	0-65 m / min.
Total Power	5,3 kw	5,3 kw	6 kw
Overall Dimension	8500 x 1600 x 1700 mm	8500 x 1800 x 1700 mm	9500 x 2000 x 2000 mm
Weight	3.0 T	3.3 T	4 T
