

KESTAR GZFM SERIES

High-Speed Automatic Flute Lamination Machine

After a thorough survey of domestic and international market demand, we made this high speed machine, in order to meet the requirements of latest color printing & packing.

Function Characteristic

- * Multi Function:
Cardboard and corrugated paper, cardboard and cardboard.*
- * High Speed:
Improve production efficiency, max.speed is up to 11000s/h.*
- * High Precision:
Can be effectively ensured the normal operation of the cutting process. The accuracy of the front lay is $\pm 1\text{mm}$, the precision of the side lay is $\pm 2\text{mm}$.*
- * High Stability:
The utilization of synchronous belt drive in the machine is up to 90%, make the machine more stable and with lower noise.*
- * High Reliability:
The main electric components are all international famous brand, such as Yaskawa, Siemens, Schneider, Omron.*
- * Intelligent:
According to many years of production experience and actual use of the user site, we independently developed full set of electronic control procedures, operation and troubleshooting become simple.*

TECHNICAL PARAMETERS

| Model | GZFM-1300 | GZMF-1450 | GZMF-1600 |
|-----------------------------|------------------------|------------------------|------------------------|
| <i>Max. Paper Size</i> | 1300 x 1300 mm | 1450 x 1300 mm | 1600 x 1200 mm |
| <i>Min. Paper Size</i> | 550 x 350 mm | 550 x 350 mm | 550 x 350 mm |
| <i>Paper Thickness</i> | 150 - 700 g | | |
| <i>Base Paper Thickness</i> | 300 g - 8 mm | | |
| <i>Max. Speed</i> | 11000 m / min. | | |
| <i>Lamindin Precision</i> | ±1mm | | |
| <i>Total Power</i> | 20 kw | 22 kw | 22 kw |
| <i>Overall Dimension</i> | 13000 x 2100 x 2500 mm | 13000 x 2300 x 2500 mm | 13000 x 2500 x 2500 mm |
| <i>Weight</i> | 7 T | 7.5 T | 8 T |
